

# Email System

---

Please consider following screens for HTML design.

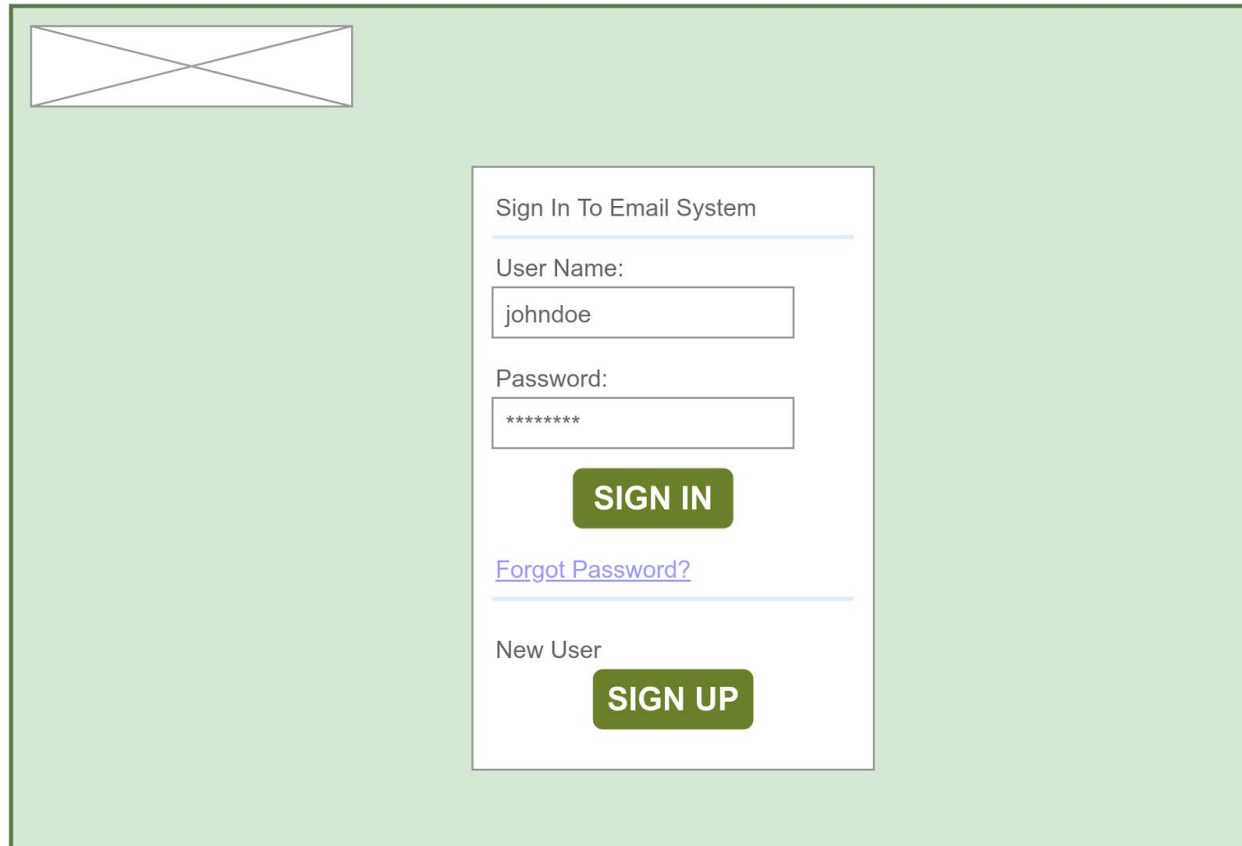

- 1.Login: Login to system
- 2.Registration: Register to System
- 3.Forgot Password: Forgot password
- 4.MailSystem: Welcome page of system
- 5.Details of Email: Email details
- 6.Compose Email: Composing new email

Common Notes:

1. Buttons and link must have design change on mouse over
2. Name your system as per your choice and choose logo for top right corner image
3. You can use <https://drive.google.com/file/d/0B-sGQdyWIXlqblVicTYyTV8wc3M/view> icons for your project
4. Header, navigation bar and Footer need to stick at the same place.
5. Header link should redirect to appropriate pages

# Login

---

A login form mockup on a light green background. In the top left corner, there is a white rectangular box with a black 'X' inside. The main form is a white rectangle with a thin black border. It contains the following elements: a title 'Sign In To Email System' followed by a horizontal blue line; a label 'User Name:' above a text input field containing 'johndoe'; a label 'Password:' above a password input field containing '\*\*\*\*\*'; a green 'SIGN IN' button; a blue link 'Forgot Password?' followed by another horizontal blue line; and the text 'New User' above a green 'SIGN UP' button.

## Validations

1. Username, and password should be non empty
2. Username should have alphabets only

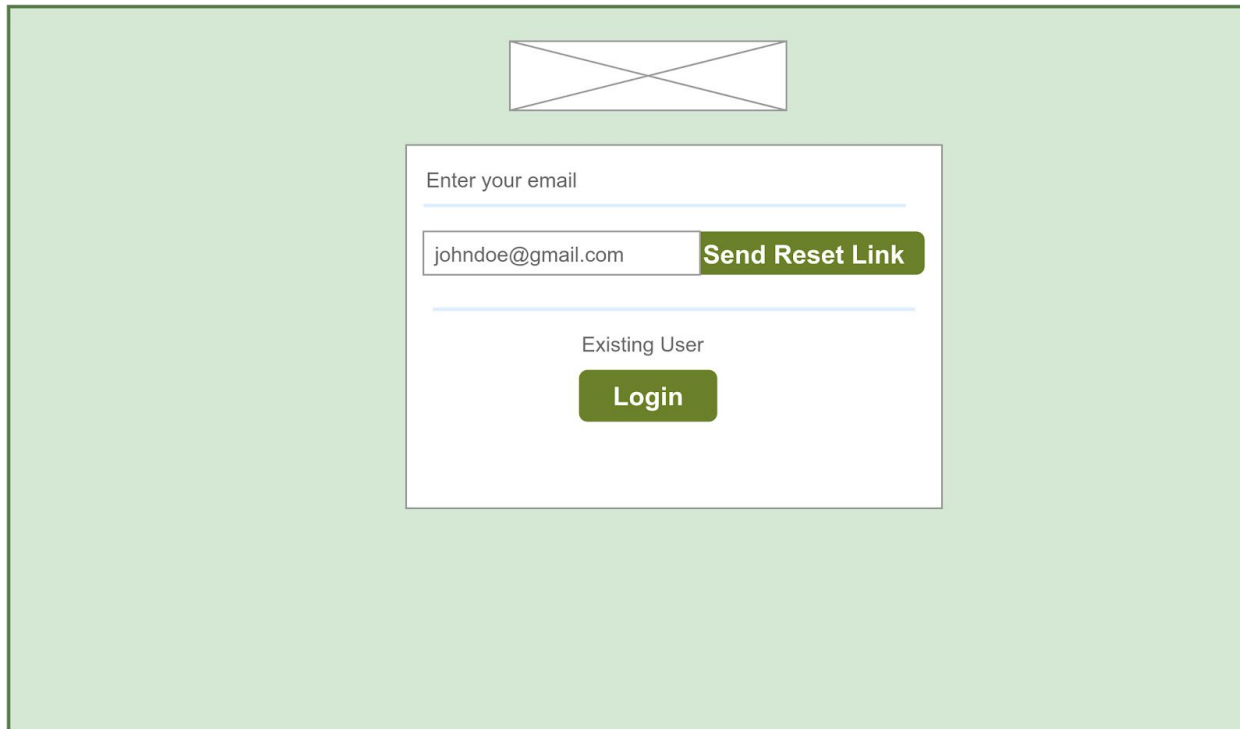

Forgot password should redirect to ForgotPassword.html

Sign Up should redirect to Signup.html

# Registration

<div data-bbox="226 381 640 457"></div> <div data-bbox="600 511 974 1221"><p>Register to system</p><hr/><p>User Name:</p><input data-bbox="621 623 900 670" type="text" value="johndoe"/><p>Password:</p><input data-bbox="621 725 900 773" type="password" value="*****"/><p>Confirm Password</p><input data-bbox="621 828 900 875" type="password" value="*****"/><p>Email</p><input data-bbox="621 930 900 977" type="text" value="john@gmail.com"/><p><b>SIGN UP</b></p><hr/><p>Existing User</p><p><b>SIGN IN</b></p></div>	<p>Validation</p> <ol style="list-style-type: none"><li>1. Username, password, confirm password and email should be non empty</li><li>2. Email should have valid email</li><li>3. Username should have alphabets only</li></ol> <p>On click of Sign In, it should redirect to Login.html</p>
--	--

## Forgot Password

A screenshot of a web form titled "Forgot Password" set against a light green background. At the top center is a white rectangular box with a black 'X' inside, representing a missing image. Below it is a white form container. The form has a label "Enter your email" above a text input field. The input field contains the email "johndoe@gmail.com". To the right of the input field is a green button with white text that says "Send Reset Link". Below the input field is another label "Existing User" above a green button with white text that says "Login".

Enter your email

johndoe@gmail.com **Send Reset Link**

Existing User

**Login**

### Notes:

1. Validation: Email should be non-empty and email value
2. On click of Login it should redirect to Login.html
